Attention: DNTS (Mr. Taniguchi, 4741)

Dear Colonel Bohlson:

In response to your letter of 13 September 1983, we checked the enclosed three page list of National Intelligence Surveys (NIS), Section 23S. In no case has any Section 23S been declassified; all of the publications listed on hand at HQ 2nd Weather Wing retain the security classification indicated on the lists.

While many of the 23 Sections (Weather and Climate) of the NISs for the countries you indicated have been declassified, the 23S Sections remain classified. In fact, because of the nature of the information they contain, we see little chance that any of these special sections will be declassified in the near future.

Sincerely,

Director of Information Services  
Directorate of Administration
